B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their

location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the establishment or modification of regulations in 40 CFR parts 174 and 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the requests before responding to the petitioners. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petitions described in this document contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this document, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

New Tolerance Exemption

1. *PP 3F8221*. (EPA-HQ-OPP-2014-0560). SciReg International, 12733 Director's Loop, Woodbridge, VA 22192, on behalf of Andermatt Biocontrol AG., Stahlermatten 6 CH-6146, Grossdietwil, Switzerland, requests to establish an exemption from the requirement of a tolerance for residues of the microbial pesticide, *Bacillus amyloliquefaciens* strain FZB42, in or on all food commodities. The pesticide is intended to control soil borne diseases. The petitioner believes no analytical method is needed because *Bacillus amyloliquefaciens* strain FZB42 is virtually non-toxic and is not pathogenic. Andermatt Biocontrol AG is, therefore, submitting a petition to establish an exemption from the requirement of a tolerance and an analytical method is not required. BPPD

2. *PP 4F8251*. (EPA-HQ-OPP-2014-0457). J.R. Simplot Company, 5369 W. Irving St., Boise, IN 83706, requests to establish an exemption from the requirement of a tolerance for residues of the plant incorporated protectant (PIP), Potato Late Blight Resistance Gene (also known as *Rpi-vnt1*), in or on potato. Monsanto Company, 800 North Lindbergh Blvd., St. Louis, Missouri 63167, requests to establish an exemption from the requirement of a tolerance for residues of the plant-incorporated protectant (PIP), *Bacillus thuringiensis* Cry2Ab2 protein, in or on soybean. The petitioner believes no analytical method is needed because the petitioner is seeking an exemption from the requirement of a tolerance. BPPD

5. *PP IN-10661*. (EPA-HQ-OPP-2014-0122). Exponent, 1150 Connecticut Ave., NW., Suite 1100, Washington, DC 20036, on behalf of Clariant Corporation, 4000 Monroe Rd., Charlotte, NC 28205, requests to establish an exemption from the requirement of a tolerance for residues of C.I. The petitioner believes no analytical method is needed because it is not required for the establishment of a tolerance exemption for inert ingredients. RD

6. *PP IN-10682*. (EPA-HQ-OPP-2014-0265).
